9. Data breach procedure

9.1. Introduction

If personal data held by the Council is mishandled, the law requires that it respond in certain ways. This document sets out how the Council will meet its legal obligations should such a situation ever arise.

9.2. What is a data breach?

The mishandling of personal data (“a data breach”) can happen in many ways. The following list describes some of the most common (it is not a complete list):

- Sending or copying an email to an unintended recipient.
- Copying an email to recipients using “cc” rather than “bcc”;
- Accidental loss or theft of a memory stick, laptop computer, CD-ROM, etc.
- Unauthorised persons gaining access to physical or electronic records (e.g. during a burglary or computer hack).
- Accessing records for no proper purpose (e.g. staff and councillors may need to consult records for a legitimate purpose, but it may be illegal for them to do so out of idle curiosity).
- Improper deletion or alteration of records (including by malicious persons or software);
- Ignoring or mishandling a legitimate request for data to be corrected or deleted.

Sometimes it is obvious when a data breach has happened, but this is not always the case. In case of doubt (that is, if you think that a data breach may have happened but are not necessarily sure) then you must follow this procedure.

9.3. Who does this procedure apply to?

- If you work for the Council (whether as an employee, a worker, or a free-lancer or contractor) then this procedure applies to you. Failure to do so without a lawful excuse may result in disciplinary or enforcement action being taken against you. In a sufficiently serious case this could result in dismissal without notice or immediate termination of your contract for services.
- Councillors are also required to conduct themselves in accordance with this procedure. Failure to do so without a lawful excuse or impeding staff in the application of the procedure may amount to a breach of the Code of Conduct.

9.4. What to do if a data breach is known or suspected

If you have reason to believe that a data breach has happened or may have happened, you **MUST** complete a Data Breach Report Form (see form below) as this

form details the procedure and the appropriate response to the data breach. The form will then be kept confidentially at the Council Office for council records only.

Do not worry if you cannot fill in every part of the form fully – fill in as much as you can. It is important not to delay for any reason – this is more important and urgent than anything else you may have to do (apart from medical emergencies or immediate threats to someone's physical safety)

Send the completed form to the Town Clerk and Deputy Clerk as soon as you can by email. If this is not possible, deliver hard copies to them in person at the council office.

9.5. Responding to a Data Breach Report

- Upon receiving a Data Breach Report Form the Town Clerk and the Deputy Clerk will speak to each other and agree which of them will take responsibility for the subsequent handling of the matter. Where this is not possible responsibility will fall on the Town Clerk unless they are unavailable for any reason in which case responsibility shall devolve to the Deputy Clerk.
- The responsible officer will then invoke and follow the Data Breach Checklist & Action Plan set out below.
- The Town Clerk will invoke and follow the Data Breach Checklist & Action Plan set out below.
